REFERRAL GUIDELINES

Colposcopy Clinic

Referral Form: The GP Referral Template located within the Mastercare Referralnet system is the preferred referral tool. For faxed referrals, use the Colposcopy Clinic referral form.

Clinic overview:
Due to the introduction of the new NCSP guidelines in December 2017, referrals to the colposcopy clinic have increased significantly. Priority will be given to patients with high grade cytology. Other categories of cytological abnormality will be triaged accordingly.

For the time being, Peninsula Health are unable to accept referrals for colposcopy for women with HPV and negative cytology even if colposcopy is advised other than for health care card and pension card holders. Please indicate on your referral if your patient has a health care card or pension card. Please refer women with negative cytology to local gynaecologists. Local gynaecologists can also see women with abnormal cytology.

The aim is to manage all women with the following condition:
- Oncogenic HPV with High Grade abnormality (pHSIL or HSIL)
- Oncogenic HPV (any type) persisting at 12 months repeat following initial oncogenic HPV not 16/18)
- Oncogenic HPV (any type) with glandular abnormality including adenocarcinoma-in-situ on cytology
- Abnormal looking cervix (excluding simple cervical polyps)

REFERRAL GUIDELINES
Colposcopy Clinic

Eligibility Criteria

Women with abnormal Cervical Screening Test and abnormal cytology requiring colposcopy
Patients must live with Peninsula Health catchment area

Exclusions & Alternative referral options

- HPV 16/18/other with negative cytology- Refer to local gynaecologist
- Vaginal and vulval intraepithelial neoplasia- Refer to local gynaecologist / Monash Health
- Benign cervical polyps with negative CST- Refer to local gynaecologist
- Peninsula Health does not have a Gynaecology outpatient service. Women who require gynaecology review and/or intervention have several options including
  - Be referred to a private Gynaecologist and treated as a public patient at Frankston Hospital if surgery is required. A list of hospital specialists with private rooms who can refer patients to the Frankston Hospital Gynaecological Surgery waiting list can be found on our website Specialist Directory
  - Be referred to another health service with public gynaecology outpatient services such as Monash Health.
