

Get referral ready with ReferralNet

Peninsula Health Secure Messaging Partner

Why move to a digital referral process when you can fax?

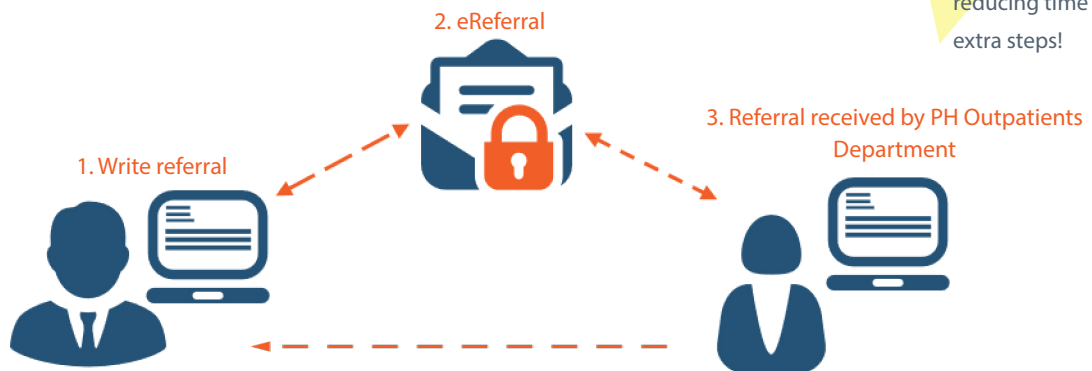

The traditional fax process:

KEY NOTE!

eReferral templates will automatically populate mandatory fields, reducing time wasted on extra steps!

The ReferralNet process:

Send and receive referrals easily and save your patients on their waiting time.

Sending referrals with ReferralNet is as easy as:

1. Writing your referral from your letter writer as you normally do
2. Clicking the ReferralNet send option to send to PH Outpatients Department

is partners with

ReferralNet saves you and your team time on analog methods and double handling. Send referrals directly to the PH Outpatients Department from your clinical system's letter writer. This allows you to communicate with other healthcare providers more efficiently while protecting your patients' privacy.

Enjoy the benefits of

Efficiency

Referrals processed more rapidly. Reduced administrative costs

Referral Tracking

Receive notifications on referral receipt and appointment status

Clinical

Use templates to improve quality of referral information

Security

Referrals are harder to lose and risk of privacy breaches is minimised

So your patients can experience

Only you and your patient's referred healthcare provider will see the referral

Faster and easier communication will lead to better patient outcomes and overall care

Bringing the benefits to you, your practice and your patients

Save time and money on referrals and other paper-based communication with ReferralNet. Set activity reporting so that you can closely monitor what your practice is sending and receiving. Securely and efficiently communicate with other healthcare providers from your clinical system.

Grow your referral network with Peninsula Health

Use the ReferralNet interactive address book with real-time address search to find the right provider for your patient. Connect with additional healthcare providers such as psychologists, physiotherapist and others for better patient outcomes. On-site support is available to assist you with all of your eReferral IT questions.

Integrates with your existing practice and clinical system

ReferralNet works as a plug-in in your practice and clinical system's letter writer. You would create your referral as usual but instead of printing it out, you would click the option to send via ReferralNet.

KEY NOTE!

For a limited time only, Peninsula Health will have a designated representative to assist you on site!
